

Health in a changing world

This international module is organised with the support of the
COEHRE Academy

ASSIGNMENT FOR MODULE 2

Multi sensorial cultural evening

During module 2, we will organize an intercultural evening. It will be an evening where we can have fun together while discovering things about each other's countries.

We invite you to present your country using the different senses: visual elements, listening, touch, smells, taste, and other senses ... Use your imagination!!

1st session: The Market of Countries

Each group of representatives from one country will have a table at its disposal in order to personalize it (you can bring flags, posters, flyers etc.) and present its speciality (food, drinks, traditional objects). It will not be possible to use PowerPoint or video presentations, so when the others pass in front of your stand you will have to tell them aspects about your country, individually.

2nd session: Let's dance together!

Each group of national representatives will have to teach the other participants at least 2 traditional dances. Please ask your parents/grandparents to teach you some if you don't remember/know any.

What you could bring with you?

- Traditional food (sweets, cakes, dry deserts, cheese, traditional salami etc.)
- Traditional drinks (alcohol is allowed in moderate quantities)
- Traditional music (10-20 songs/country, MP3 format)

- Promotion materials (flags, posters, flyers, brochures, pictures etc.)
- Small traditional objects (small music instruments, small pottery etc. – whatever you consider representative)
- Traditional costumes (and wear them, if possible)

We don't have access to a kitchen, so you will have to bring food that is already prepared. Please try to bring food that can stay at 'room temperature' because we will have access to only 1 fridge that will be shared among all participants. We don't have access to internet in that room, so please prepare the music on beforehand and do not count on YouTube clips.

Please prepare seriously for the Intercultural Evening!

Divide the tasks (and things to bring) among you!

We would like to prevent the situation where some are very well prepared and others have practically nothing to present about their country at all.

If you might have any questions, please do not hesitate to discuss this with your local tutor, to contact the other students of the distance learning module, or to mail to anne.vanautryve@arteveldehs.be
